## A) Introduction and important facts about groups system and final rounds

### ***Preparations***

- Create a specific seeding list for your tournament (note your seeding deadline for the tournament) according registered participants & official ICO international ranking. For doubles divisions use the ICO ranking list for doubles and sum up the points of every double partner to get the ranking points of the registered double pairs and to create the seeding list. In case one or both player(s) have no ranking position take “0” points for the missing one (sum up again points in doubles) and take him to the last position in the ranking.
- Results will only be valid for the ISBO ranking if: at least 4 registered players participate in the Junior divisions and at least 8 players in all other divisions (4 pairs for doubles). If a division is cut due to a lack of participants, the registered participants of that division will be placed in the next higher division. For Junior categories there is an exception: U12 and U14 male and female participants must be mixed into one category as well as U18 doubles. If participants have to play a higher division, they will be seeded after their ranking in the higher division. If they do not have a ranking they will be draw by lot. From the 1st January 2016 players that cant play their own category due to the low number of players will play any other category that they are allowed to play, but points will be awarded for all categories that they could play, including their own category.
- 
- Players who register for an ICO tournament but do not show up without any written and approved reason receive minus 100 points for the ranking in each division they have registered (please send the ICO the names of these players via the tournament report!)

### ***Notes on group stage***

- Every player must have minimum 3 games [exception: 6,7 (U12, U14 & U18) and 11players – 4-4-3]
- Seed minimum as much players as total groups of every division and set these players on the top of groups. Draw the other players in the group or as described under B).
- In case of a draw and to get the best placed players in the groups reaching the final rounds go on as described, including always all matches of the group: 1. winning matches (in relation won/lost) 2. Set points (in relation: won / lost) 3. Points (in relation: won / lost) 4. Won or lost against the player who is still on the same place 5. by lot
- Use the documents and system under point B) of this document. Tournament software are accepted after confirmation by ICO executives and only if these regulations are followed.
- Draw System: Put numbers from “1” till “total number of participants in the division” on a paper and fold it that the numbers cannot be seen. Then put it in different bags in the following way:

- Bag1: Numbers 1 & 2
  - Bag2: Numbers 3 & 4 if necessary (> 3 groups)
  - Bag3: Depends on the numbers of groups & total numbers of participants (see B of this document for your total number of participants in the division)
  - Bag4: Numbers for the next line of groups (see B of this document for your total number of participants in the division)
  - Bag5: ....
  - Afterwards take the papers with numbers (one by one) and put the names by order (see B of this document) in groups.
- Start drawing the remaining players with the last group moving downwards

### ***Notes on final rounds***

- The best 2 players of each group reach the final round; if applicable handle free positions in the tournament bracket as Byes (player reach automatically the next round)
- Avoid that players from the same group play against each other in the first round of the final round again and as late as possible
- Knock-out-system (including semi-final): Lost = no more game
- For doubles without group stage: Same way players go from groups to the KO-Draw. Remember to set players by lot, f.e. 8 players: 1<sup>st</sup> & 2<sup>nd</sup> of seeding list go to position 1 or 8, 3<sup>rd</sup> & 4<sup>th</sup>: 5 or 4, 5<sup>th</sup> & 6<sup>th</sup>: 3 or 6, 7<sup>th</sup> & 8<sup>th</sup>: 2 or 7;
- Use the documents and system under point B) of this document

### ***Notices***

- Send the draw, which you have assigned by lot for your tournament previously (in time!) the tournament to the ICO (address: [tournament@crossminton.org](mailto:tournament@crossminton.org))!
- Please report (per tournament report) the ICO about players cancelling their participation too late (after the no-return deadline) or weren't at the venue in time. These players lose all games 0:16 / 0:16 and get 100 minus points for the rankings. The ICO will decide about further consequences.
- Over 80 participants organize a tournament on 2 days (not 1 day) – not obligatory

The ICO uses the following system to avoid players from the same group play against each other in the final round again respectively as late as possible!
